

My wife and I want to say that K-Love (94.3) has been a wonderful station to have in our community. It has served us as a family and has touched our lives by the music they play as well as the ministries they offer and are a part of. If K-Love were to be taken off the air, it would be a disaster. We choose to listen to K-Love because of the message it sends to it's listeners. We also have a small child, and we don't have to worry about what they say. Other stations are not fit for a family, moreover they're not fit for a child to listen to, there are only a select few stations, K-Love being one of them, that allow children to grow with positive values. We believe that K-Love is helping CHANGE LIVES through it's music ministry and the other ministry it offers. Please do not take or replace K-Love with any other programming.
